“Wine Care Specialists”

INTRODUCING A SMARTER WAY TO PROTECT YOUR WINE

koolR™ series

Quieter • Smaller • Smarter

Conveniently monitor temperatures from outside your wine cellar with the digital display.

Let the super smart controls sense conditions in your room and adjust the power levels automatically. No need to fiddle with the fan and power settings.

The unit will run as quietly as your conditions allow. Precise temperature and higher humidity levels around the clock.

Quality features including superior energy efficiency, hi-temp alarm, excess humidity warning, and a multi-level vibration suppression system.

Simply pop it in the space over any door. Can also be mounted on wall.
